## Education

---

### PSNA College Of Engineering And Technology

2021 – 2025

BE ECE

CGPA-7.4

### Higher Secondary School Education

2021

Percentage-89

### Secondary School Education

2019

Percentage-88.4

## Skills

---

HTML , CSS • ReactJS • Java • SQL • Python • Networking

## Projects

---

### FlowStack Portfolio [JS | Next.js | React]

Built an interactive, animation-rich personal portfolio using AI-generated UI components and a full-stack architecture. Implemented smooth page transitions, responsive layouts, and optimized performance for a seamless user experience. Showcases projects, skills, and contact features through a modern, visually dynamic interface.

### YouTube Clone [HTML | CSS]

Designed and built a responsive YouTube-inspired front-end using HTML and CSS, recreating its layout and user experience.

### Real-Time Weather Tracker [HTML | CSS | API INTEGRATION]

Built a simple and user-friendly weather application using HTML, CSS, and JavaScript. It fetches real-time weather data based on user input and displays key details like temperature, humidity, and conditions. The app also includes a clean interface and smooth user experience.

### Student Management System [Java | MySQL]

Developed a Java-based student management application with MySQL database integration. Implemented features to add, update, delete, and view student details through an interactive Swing GUI. Focused on creating a simple, user-friendly interface for easy navigation and efficient record management.

### RPS Game

A fun and simple Rock Paper Scissors game built with HTML, CSS, and JavaScript. Just pick your move and see if you can beat the computer!

## Certifications

---

### Python

A comprehensive study of Python programming, covering fundamental concepts, data structures, and practical applications for software development and automation.

### SQL

Completed SQL Certification from Great Learning, focusing on database management, querying techniques, and data manipulation using SQL. Gained hands-on experience with complex queries, joins, and optimizing database performance

## Soft skills

---

• Time Management

• Multitasker and team player

• Good Communicator
